Homemade Butters and Alternative Milks

The NutraMilk is a kitchen appliance that processes nuts, seeds, grains, and legumes into butters and/or alternative milks without soaking or straining base products by hand. The NutraMilk also can be used to make dips, smoothies, and coffee drinks, and consumers can add any flavorings they choose to homemade milks and butters. <https://thenutramilk.com>

Patients Eat More, Hospitals Spend Less

CBORD recently has introduced the CBORD® Patient™ meal ordering app that connects directly to CBORD foodservice and nutrition systems so diet order safety is built in. Hospitals of all sizes are reducing call center volume and empowering patients using the CBORD® Patient™ app to handle meal ordering, with personalized menus to ensure patients only view foods appropriate for their diet order.

Foodservice technology can have a real impact on patient wellness and nutrition. It also can help free employees to focus on other priorities. In a recent study published in the *Journal of Human Nutrition and Dietetics*, 60% of patients accessed an electronic Bedside Meal Ordering System independently, with no assistance from staff. cbord.com/patient-app

Delivery Meal Plan Unveiled

Sun Basket, a healthful meal kit delivery service, rolls out its Quick & Easy Meal Plan, which offers meals that can be prepared in 20 minutes, one-pan meals, and easy prep meals. Some of the new meals include Steak With Sagna Ciauda Anchovy Sauce, Broccoli, and Radishes; One-Pan Seared Salmon With Chimichurri and Summer Vegetables; and Miso Tempeh Burgers With Garden Salad and Dijon Vinaigrette. <https://sunbasket.com>

Small-Batch Vegan Meats and Cheeses

The Herbivorous Butcher offers a wide range of vegan meat and cheese substitutes made in small batches by hand. Vegan meats include burgers, chicken, deli ham, sausages, steaks, smoky house ribs, breakfast meats, and more. Vegan cheese varieties include American, Camembert, Brie, cheddar, ricotta, Swiss, smoked Gouda, and many others. www.theherbivorousbutcher.com

Freeze-Dried Fruit Launches

Crispy Green unveils a line of freeze-dried Crispy Fruit in Apple, Banana, Mango, Asian Pear, Pineapple, Tangerine, and Cantaloupe varieties. They contain only fruit and no added sugars, additives, or preservatives. <https://crispygreen.com>

Fiber Supplement Available

Yerba Prima, maker of fiber supplements, offers its Daily Fiber Formula in an improved orange flavor. The powdered supplement contains five types of fiber, as well as soluble and insoluble fiber, and can be mixed with water. It's certified gluten-free by the Gluten Intolerance Group and is non-GMO. <https://yerba.com>

Banana Chips Released

Bare Snacks, maker of a variety of fruit, vegetable, and coconut chips, introduces Strawberry Banana Chips. The banana chips are baked and dusted with crushed strawberry. They include no added sugars or oils and are fat-free, gluten-free, and Non-GMO Project Verified. <https://baresnacks.com>
